

# Student Loans and Paying for College 

## Study on Collegiate Financial Wellness

Center for the Study of Student Life

August 2023

## EXECUTIVE SUMMARY

The purpose of the Study on Collegiate Financial Wellness (SCFW) is to gain a more thorough and accurate picture of the financial wellness of undergraduate students. This report addresses the most recent The Ohio State University administration of the SCFW in March 2023 and summarizes findings in key areas of financial wellness among First, Second, Third, Fourth, and Fifth year and beyond students.

For reference on this cohort of students, first year students had their first year of college in the 2022-2023 school year. Second years had their first year of college in 2021-2022, third years had their first year of college in 2020-2021 and fourth years had their first year of college in 2019-2020. Fifth years and beyond had their first year of college in 2018-2019 or earlier.

## KEY FINDINGS

- There are few significant differences between each of the ranks.
- First-year students are significantly less likely to say that they will borrow the maximum amount of student loans offered to them, regardless of the amount, compared to other students.
- Tuition, housing and textbooks are the most common items that students pay for with their student loans.

What is your year in school? $(n=522)$

|  | $\boldsymbol{n}$ | Percent |
| :--- | :---: | :---: |
| First-year undergraduate | 134 | $25.6 \%$ |
| Second-year undergraduate | 124 | $23.8 \%$ |
| Third-year undergraduate | 123 | $23.6 \%$ |
| Fourth-year undergraduate | 102 | $19.5 \%$ |
| Fifth-year or beyond undergraduate | 39 | $7.5 \%$ |

## FINDINGS

## Federal Pell Grant \& Work Study

The table below shows the percentage of students by school year who indicated that they had either been offered or received a federal Pell Grant or federal work study while pursuing their current degree. Students had the option to respond "yes," "no," or "I don't know." The table below displays the percentage of student who indicated "yes."
Table 1. Federal Pell Grant and Work Study

| Items | $\mathbf{1}^{\text {st }}$ Year | $\mathbf{2}^{\text {nd }}$ Year | $\mathbf{3}^{\text {rd }}$ Year | $\mathbf{4}^{\text {th }}$ Year | $\mathbf{5}^{\text {th }}$ Year | Significance |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| A federal Pell Grant | $39.6 \%$ | $38.8 \%$ | $36.4 \%$ | $37.5 \%$ | $60.6 \%$ | - |
| Federal work study | $24.5 \%$ | $27.8 \%$ | $21.4 \%$ | $21.3 \%$ | $42.4 \%$ | $*$ |

The Ohio State University

## Sources of Funding

Students were asked to indicate how much (None, Some, Most, or All) of the following sources of funding paid for their college expenses. The table below displays the percentage of students by school year who indicated Some, Most, or All for the following sources of funding:
Table 2. Sources of Funding for College Expenses

| Amount | $\mathbf{1}^{\text {st }}$ Year | $\mathbf{2}^{\text {nd }}$ Year | 3 $^{\text {rd }}$ Year | 4 $^{\text {th }}$ Year |  <br> Beyond | Significance |

## Student Loans

Students were asked to indicate if they have or previously had student loans to pay for their education including federal or private student loans. The figure below displays the percentage of students by school year who indicated Yes, No, or I don't know.

Figure 1. Self-Reported Student Loans

Students who reported having student loans were asked to select the type of student loans they had from the following options:
Table 3. Student Loan Type
