

# **Campus Climate on Diversity: Results from the 2012 and 2015 Multi-Institutional Study of Leadership**

Center for the Study of Student Life

January 2017

THE OHIO STATE UNIVERSITY  
OFFICE OF STUDENT LIFE

## EXECUTIVE SUMMARY

The Multi-Institutional Study of Leadership (MSL) is an international survey that investigates the extent to which the university environment contributes to student leadership development and, in turn, to the preparation of global citizens.

This report uses data from 2012 and 2015 MSL to examine three aspects of Ohio State's campus climate: (1) sense of belonging and acceptance, (2) perceptions of a campus atmosphere of prejudice and hostility and (3) experiences with discrimination on campus.

### KEY FINDINGS

#### Sense of Belonging and Acceptance

- In 2015, **72.5%** of students felt that they belonged on Ohio State's campus and **70.0%** felt accepted by the campus community
- In both 2012 and 2015, international students reported a lower sense of belonging and acceptance on Ohio State's campus than U.S. citizens or permanent residents
- In 2015, fewer students with disabilities experienced a sense of belonging (**61.8%**) and acceptance (**61.8%**) on campus than students without disabilities (**73.5%** belonging, **70.8%** acceptance)

#### Atmosphere of Prejudice or Hostility

- **17.4%** of respondents in 2015 perceived a general atmosphere of prejudice among other students, compared with **13.8%** of respondents in 2012
- In 2015, **6.4%** of students would describe the campus environment as negative or hostile
- Perceptions of a prejudiced or hostile atmosphere were significantly higher among students of color: **38.8%** of Black and **25.4%** of Asian students perceived a prejudiced atmosphere in 2015, compared with **13.7%** of white students
- In 2015, higher percentages of Muslim (**31.6%**) and Jewish (**24.0%**) students perceived the atmosphere to be prejudiced than Christian students (**15.3%**)
- A greater percentage of international students (**20.8%**) perceived the campus climate to be hostile/negative than U.S. citizens or permanent residents (between **5.0%** to **9.2%**) in 2015

#### Discrimination on Campus

- In 2015, **23.4%** of students reported encountering discrimination while attending Ohio State
- **16.4%** of respondents in 2015 reported that other students discriminated against people like them; **7.0%** reported discrimination by staff and **9.6%** reported discrimination by faculty
- In 2015, **42.9%** of Black students, **34.9%** of Asian students, and **33.3%** of Latinx students reported experiencing discrimination while attending Ohio State, compared with **18.9%** of White students
- Discrimination was more commonly reported by international (**41.5%**) and first generation U.S.-born (**42.9%**) students than those whose parents were born in the U.S. (**19.9%**).
- Religious minorities, particularly Muslim, Jewish and Buddhist students, were more likely than Christians or religiously unaffiliated students to report that faculty, staff, and other students discriminated against people like them

## INTRODUCTION

The Multi-Institutional Study of Leadership (MSL) is an online survey that was conducted to measure the environmental factors of the college experiences that contribute to student leadership development and, in turn, to the preparation of engaged citizens. In 2012 and 2015, the survey was administered to a random sample of 4,000 undergraduate students on The Ohio State University's Columbus campus. The response rate was 20.9 percent in 2012 with 839 students responding and 30.6 percent in 2015 with 1,224 students responding.

This report examines student perceptions of Ohio State's campus climate around diversity. Eight indicators are used to examine student perceptions that follow the themes of (1) students' sense of belonging and acceptance, (2) the campus atmosphere of prejudice/hostility and (3) discrimination on campus.

## DEMOGRAPHICS

Participants provided demographic information, including their gender, racial/ethnic identity, sexual orientation, religious and political affiliation, citizenship, disability status and whether they were a first generation college student. Selected demographics from 2015 are summarized below. See the Appendix for full demographic information.

**Racial/Ethnic Identity**

**Gender Identity and Sexual Orientation**

Gender	n	Percent
Male	438	43.8%
Female	559	55.9%
Transgender/Non-conforming	3	0.3%
Sexual Orientation	n	Percent
Heterosexual	907	91.0%
Lesbian, Gay, Bisexual Queer, Questioning (LGBQQ)	90	9.0%

**Political Views**

**Religious Affiliation**

## FINDINGS

The findings compare key questions on the campus climate on diversity from the 2012 and 2015 MSL data as well as differences in responses by demographic background. Demographic data are not reported when there are fewer than ten respondents in a group. Asterisks are used to indicate significant differences within groups. The “change” column indicates significant differences in group responses between 2012 and 2015.

### PERCEPTIONS OF BELONGING

### Demographic Differences in Belonging

I feel I belong on this campus	% Agree/Strongly Agree		Change <sup>a</sup>
	2012	2015	
Gender Identity	*		
Male	74.7%	71.6%	
Female	71.5%	73.0%	
Transgender/Gender Non-Conforming	--	--	
Racial/Ethnic Identity	*		
White	74.2%	74.3%	
Black	68.0%	77.6%	
Asian	62.7%	68.3%	
Latinx	87.5%	50.0%	↓ <sup>^</sup>
Other race/ethnicity	66.7%	53.8%	
Multiracial/ethnic	70.4%	71.6%	
Sexual Orientation			
Heterosexual	72.8%	73.1%	
Gay, Lesbian, Bisexual, Queer, Questioning	77.8%	66.7%	
First-generation College Student	***		
Not first-generation	76.7%	73.8%	
First-generation	62.4%	68.9%	

a) Change from 2012 to 2015 indicated by: ↓ indicates statistically significant decrease; ↑ indicates statistically significant increase.

Note: Small sample sizes may result in failure to detect significant differences for some groups.

## Demographic Differences in Belonging (Cont.)

<b>I feel I belong on this campus</b>	<b>% Agree/Strongly Agree</b>		<b>Change<sup>a</sup></b>
	<b>2012</b>	<b>2015</b>	
Citizenship/Generation Status	*	**	
Second-generation or higher	74.4%	74.4%	
First-generation U.S.-born	69.2%	66.3%
